Description

PRODUCT DESCRIPTION

Our company has several dust collection systems that can be adapted to any manufacturer's blast equipment and will effectively and efficiently evacuate dust and debris resulting from the blasting process. These easily maintained, all inclusive systems require little maintenance and typically only require routine cartridge changes. Additionally, we offer dust cartridges to keep customers dust collectors working at peak efficiency. The condition of the dust collector is critical to proper performance of the separator.

Description

1 HR series cartridge dust collector is mainly used for gathering of floating dust and particle. No matter

it is used for air pollution control, or as one part of production process. It can make sure high efficiency

continuous online dust collection.

2 This machine is smooth running, large wind disposal quantity, large size, convenient for maintenance

and so on.

3 It is widely used for metallurgy, machinery, casting, chemical industry and so on.
