Description

Dust collector/dust remove equipment/industry dust cleaning system

Main Features

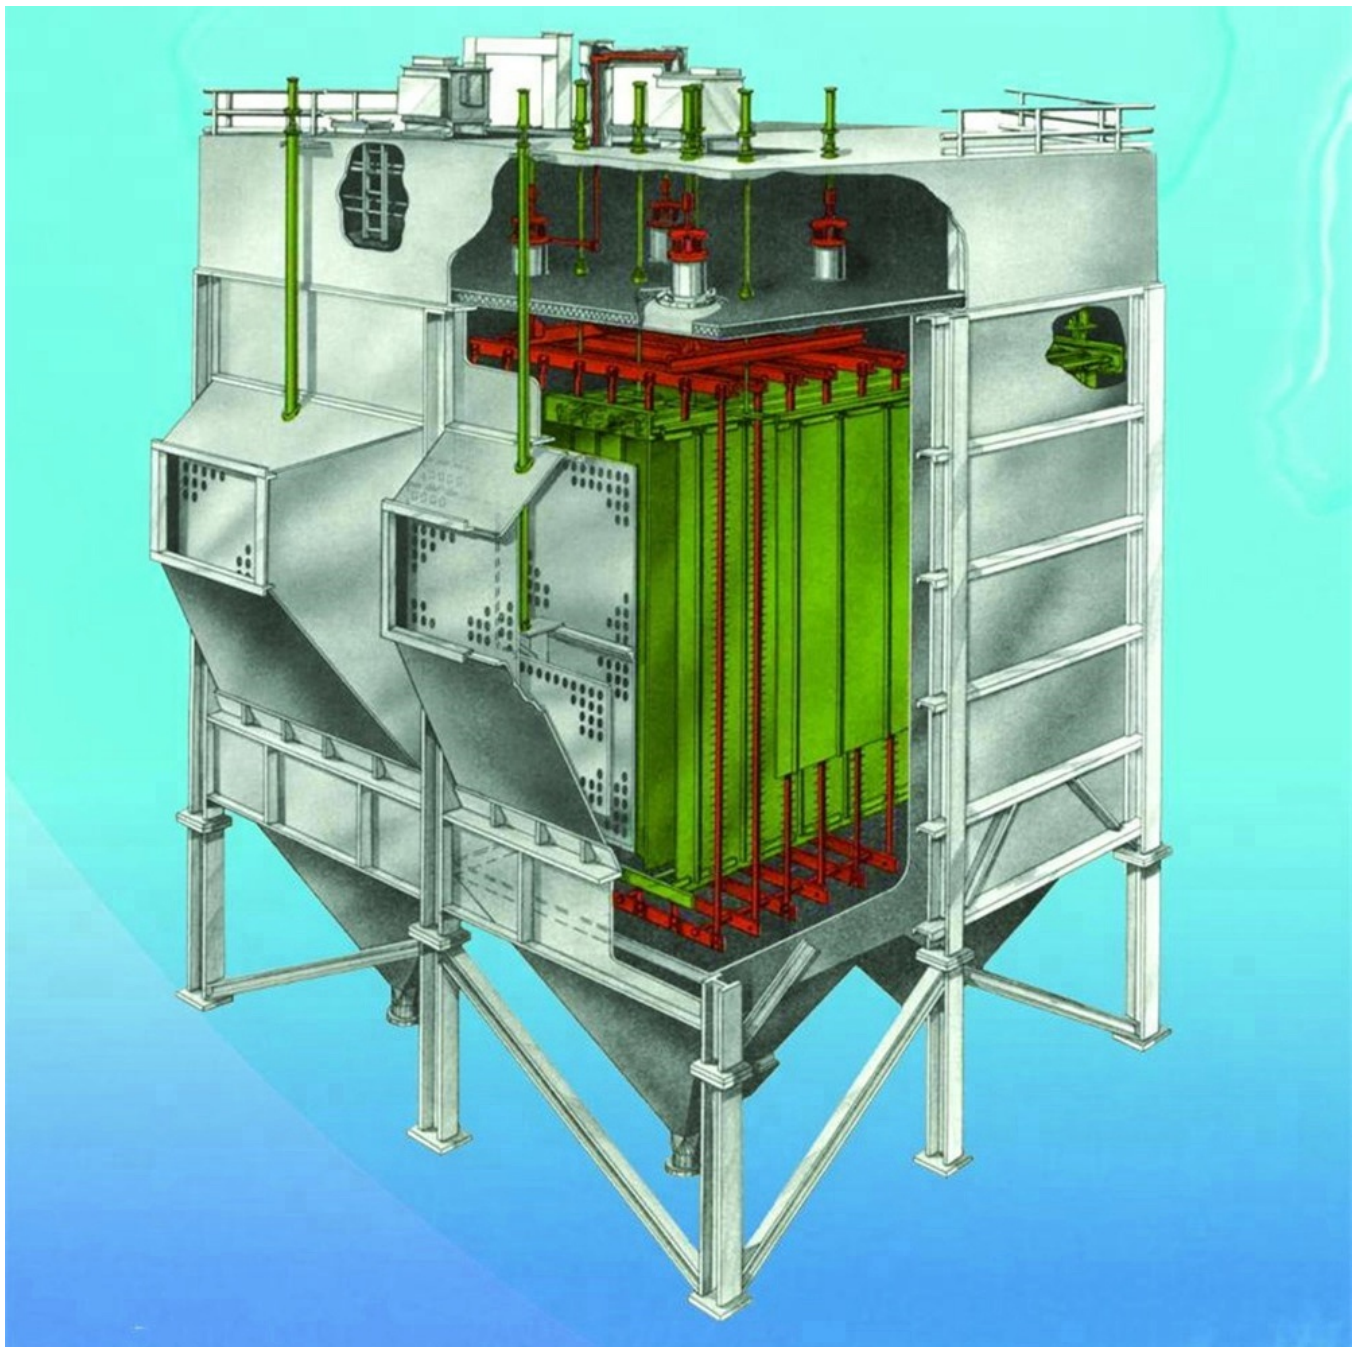

1. Complete with computer design, design accurate and reliable.
2. The shell adopts frame structure with high strength, good stability, also can be designed by different pressure and temperature requirements.
3. The ways of gas in or out can be arranged according to characteristics of the design process into various forms, process layout flexibility.
4. Using the resistance type air flow plus uniform diversion device, the air is uniform, and no

blocking phenomenon.

5. Precipitation using 480C plate board, discharge tube prick using the new RS line, most with the management, discharge uniformity, discharge performance.

6. The discharge electrode connected with the framework of the rational, no dropped calls, disconnected situation.

7. Lateral torsion arm hammer rapping, rapping uniform and effective force transmission, cleaning easy.

Technical Parameters:

Parameters		MC200	MC250	MC300	MC350	MC400
Filtration area(m2)		200	250	300	350	400
Disposal air quantity(m3/h)		26400	33000	39600	46200	52800
Sieve bag specification	Diameter	130	130	130	130	130
	Length	2500	2500	2500	2500	2500
Sieving bag quantity		200	250	300	350	400
Filtration wind speed		1.2-2.0				
Removing dust efficiency		99.5%				

If you are looking for new dust collector/dust remove equipment/industry dust cleaning system for sale, factory price, brand, made in China, hot sale, direct seller, and overseas dust collector/dust remove equipment/industry dust cleaning system from professional manufacturer, supplier and factory, please feel free to contact us, we are always at your needs of CE, customized, professional, competitive, high precision, new and good quality, and PUHUA dust collector/dust remove equipment/industry dust cleaning system. And welcome to wholesale products with good quality and professional design from us.
