Stainless Steel Exchange Table Fiber Laser Cutting Machine

Our machines have strong cutting ability, the thickness of stainless steel and aluminum can be cut to 30mm. We provide customized air cutting process database for customers with various metal materials such as carbon steel, aluminum plate, copper plate, etc., and help enterprises to reduce...

Description

Our machines have strong cutting ability, the thickness of stainless steel and aluminum can be cut to 30mm. We provide customized air cutting process database for customers with various metal materials such as carbon steel, aluminum plate, copper plate, etc., and help enterprises to reduce operating costs significantly. We also help to improve the processing technology and industry competitiveness for your company.

1. This cutting head has a strong advantage in medium power large format fiber laser cutting applications. The internal structure of the laser head is completely sealed to prevent dust contamination of the optical part. The laser head adopts two-point centering adjustment, and the focusing is driven by an imported motor, which significantly improves the efficiency in perforation. The protective lens is drawer-mounted for easy replacement.

2. It can cut and punch different kinds of metal material with high precision and high speed.

3. It is widely used for middle and thin metal plate. Cutting carbon steel, stainless steel, aluminum, galvanized sheet, electrolytic plate and other metal materials with high quality, high speed, high precision, high efficiency, cost-effective and energy saving. It is the first choice of the metal processing industry.

project		parameter	unit
Processing size	(L)	3000	mm
	(W)	1500	mm
X/Y axis positioning accuracy		±0.05	mm
X/Y axis repeatable positioning accuracy		±0.03	mm
X/Y maximum positioning speed		80	m/min
Laser generator power		1000	W
Cutting capacity: carbon steel plate		12	mm
stainless steel		6	mm
aluminum		4	mm
brass		3	mm
Maximum acceleration of X/Y		1.5	G

Motion stroke (axis)	X	3020	mm
	Y	1520	mm
	Z	150	mm
Number of phase		3	
Power rating		380	V
frequency		50	Hz

EFFECT OF CUTTING

Our laser cutting machines have strong cutting ability, the thickness of stainless steel and aluminum can be cut to 30mm. We provide customized air cutting process database for customers with various metal materials such as carbon steel, aluminum plate, copper plate, etc., and help enterprises to reduce operating costs significantly. We also help to improve the processing technology and industry competitiveness for your company.

If you are looking for new stainless steel exchange table fiber laser cutting machine for sale, factory price, brand, made in China, hot sale, direct seller, and overseas stainless steel exchange table fiber laser cutting machine from professional manufacturer, supplier and factory, please feel free to contact us, we are always at your needs of CE, customized, professional, competitive, high precision, new and good quality, and PUHUA stainless steel exchange table fiber laser cutting machine. And welcome to wholesale products with good quality and professional design from us.
